

# Workplace Fire Safety - DVD

A general fire safety DVD for office and industrial premises. It includes simple references to legislation, types of extinguisher, the extinguisher colour scheme, types of fire and what to do if you hear the alarm or if you see a fire.

Using a dynamic, instructive manner this DVD covers the main fire safety issues for your workplace.

Are your staff aware of the main risks?

Do they know what the first action must be, if they discover a fire?

Demonstrations of the extinguishers going off can be used to lead into more practical sessions on your site.

## Main Sections:

- Nature of Fire
- You see a fire or hear the alarm
- The different types of extinguisher and how to operate them

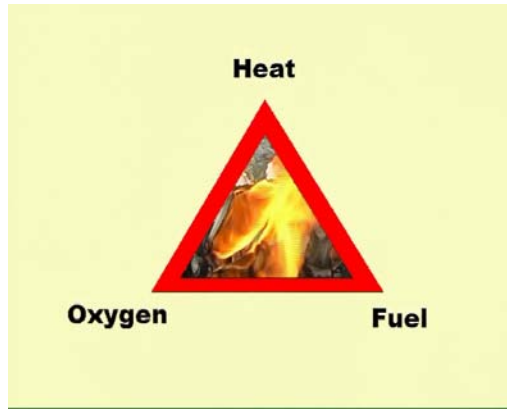

23 minutes running time. Commentary by Steve Brennan.
